ZYGMA™
ADVANCED DENTAL LAB
TAMPA · FLORIDA · MMXXVI

PRICE EXPERIENCE · 2026

One plan, one designer, *one system* — from the first scan to the final zirconia.

ZYGMA builds complex full-arch rehabilitations and hybrids for clinicians who want the planning and the prosthesis to come from the same hands. This is how a case is priced.

THE CORE OF EVERY CASE

Digital Case Planning

A single fee for every design stage of the case. Fabrication is always billed separately, so you see exactly what is design and what is production.

What the planning covers

All of the digital work, start to finish, when every stage is planned and designed by ZYGMA in ZYGMA's system:

- Initial planning and **smile design**
- **Bone reduction** planned together with you, from your measurements, into a reduction guide personalized to the patient
- **Surgery-day conversion** — analog to digital
- Redesign of the new hybrids for **occlusal or midline** adjustment
- Design of the **final zirconia** hybrid

$1,000

per case

Guides, printed models, try-ins and PMMA / printed prototypes are produced at the fee-schedule price with **no design fee** added. If a case arrives with stages done elsewhere, the package does not apply: ZYGMA charges **$300 per stage** it corrects or continues.

HOW WE WORK

Golden Rules

Short, so nobody is surprised at the invoice.

I

Design once, by ZYGMA

The $1,000 planning package is valid when every stage of the case is designed by ZYGMA, in ZYGMA's system, in ZYGMA's lab. That is what makes the final zirconia fit the plan.

II

Design and fabrication are separate lines

Planning pays for the design. Guides, models, try-ins and PMMA or printed prototypes are billed per unit or per arch when they are produced, never with a hidden design fee.

III

Outside stages: $300 each

A case that comes with a smile design, a reduction plan or a conversion done elsewhere is corrected or continued at $300 per stage, not as a package.

IV

Per arch unless stated

Hybrids, dentures, try-ins and milling are priced per arch. Guides, models and planning are per unit or per case. Both arches of one patient are two arches.

V

Approval is the billing moment for zirconia

The final zirconia or iBar hybrid is invoiced at the design-review approval, before the arch is milled; delivery itself is not billed again.

VI

Under one week is a rush: +20%

A case that must be delivered in less than 7 days from the order carries a 20% rush fee on every item requested, whatever the treatment. Shipping and remakes caused by changes after approval are quoted separately.

VII

Close the cycle, keep the $1,000

Plan, guide, try-in, prototype and final hybrid all with ZYGMA, and the Digital Case Planning fee is credited in full on the final invoice. Bring more arches a year and the Circle tiers take 5–15% off fabrication.

FEE SCHEDULE

Everything ZYGMA makes

Full-arch work, dentures, guides, models and milling. House materials: Deprag / Aidite zirconia and PMMA, Noritake ceramics, SprintRay resins.

SERVICE	FEE
DIGITAL PLANNING & DESIGN	
Digital Case Planning All design stages of one case, start to finish — smile design, bone-reduction planning, surgery-day conversion, hybrid redesigns, final zirconia design	**$1,000** per case
Design Fee — Outside Stage Per stage corrected or continued when the case was started elsewhere	**$300** per stage
SURGICAL GUIDES & MODELS	
Surgical Guide — Full Arch SprintRay Surgical Guide clear resin · bone reduction, implant or stackable	**$250** per guide
Surgical Guide — Single Implant Tooth-supported guide for one site	**$175** per guide
Printed Model Working or study model	**$65** per model
DENTURES & TRY-INS	
Denture — Milled Milled teeth and base · immediate, final or surgical reline with bite jig	**$850** per arch
Denture — Printed Printed teeth and base · immediate, final or surgical reline with bite jig	**$650** per arch
Try-In SprintRay Try-In white resin, for esthetics, phonetics and occlusion in the mouth	**$250** per arch
PMMA, PRINTED HYBRIDS & TITANIUM	
Printed Hybrid Printed full-arch hybrid in SprintRay OnX Tough 2 resin — prototype or provisional	**$300** per arch
Live Online Conversion Scheduled surgery-day session: Luiz Brito, MDT online at the booked hour, live denture-to-hybrid conversion, print-ready file sent to your clinic or local lab	**$500** per session

SERVICE	FEE
PMMA Milling Milled PMMA prototype from a supplied file or the ZYGMA design	**$650** per arch
PMMA + Titanium Frame Milled PMMA prototype on a milled titanium structure — the iBar concept, in PMMA	**$1,500** per arch
Titanium Frame Milled Ti structure alone, for an existing or outside case	**$900** per arch
ZIRCONIA HYBRIDS	
Zirconia Hybrid Full-arch zirconia with hand-layered ceramics — the house signature	**$3,500** per arch
iBar Hybrid Zirconia hybrid on a milled titanium bar / frame	**$4,000** per arch
TURNAROUND	
Rush — under 7 days Applied to every item of a case that must be delivered in less than one week	**+20%**

WORKED EXAMPLE

One upper arch, every stage

A full-arch case planned by ZYGMA: one surgical guide (a second, non-tooth-supported guide is optional), two printed models, one try-in, a PMMA prototype after conversion, and the final zirconia.

FIRST INVOICE · PLANNING AND SURGERY	
Digital Case Planning	$1,000
Surgical Guide — Full Arch × 1 (tooth-supported; a second guide without tooth support is optional, +$250)	$250
Printed Model × 2 (every case)	$130
Try-In · upper	$250
Subtotal	**$1,630**
SECOND INVOICE · PROTOTYPE AFTER CONVERSION, FABRICATION ONLY	
PMMA Milling · upper	$650
or Printed Hybrid · upper (SprintRay OnX Tough 2)	$300
or PMMA + Titanium Frame · upper (long-term provisional, iBar concept)	$1,500
AT DESIGN-REVIEW APPROVAL · FINAL	
Zirconia Hybrid · upper	$3,500
or iBar Hybrid · upper (zirconia on titanium bar)	$4,000
CASE TOTAL, ALL STAGES	
Standard: planning + guide + 2 models + try-in + PMMA + Zirconia Hybrid	**$5,780**
Long-term / iBar: same, with PMMA + Ti Frame and iBar Hybrid	**$7,130**
Full Cycle credit — every stage with ZYGMA, applied at the final	− $1,000
Standard case, cycle closed with ZYGMA	**$4,780**
iBar case, cycle closed with ZYGMA	**$6,130**

PROGRAMS

Close the cycle with ZYGMA and the planning is on us.

Two ways to pay less for the same work: finish every stage of a case here, and bring more arches a year.

Full Cycle credit — $1,000 back

When every stage of a case is designed and made by ZYGMA — Digital Case Planning, surgical guide, printed models, try-in, the PMMA or printed prototype, and the final Zirconia or iBar Hybrid — the full $1,000 Digital Case Planning fee is credited on the final hybrid invoice. Plan with us, finish with us, and the planning costs nothing.

Conditions: all stages with ZYGMA, no outside stages corrected; the credit is applied per case at the design-review approval of the final; the cycle closes within 12 months of the first invoice. It stacks with your Circle tier.

Planning + guide + 2 models + try-in	$1,630
PMMA prototype	$650
Zirconia Hybrid at approval	$3,500
Full Cycle credit at the final	− $1,000
One upper arch, all stages	**$4,780**

iBar version (PMMA + Ti frame, iBar Hybrid): $7,130 − $1,000 = $6,130. With a printed OnX Tough 2 prototype instead of PMMA: $4,430.

BRONZE

EVERY DOCTOR · FIRST CASE

List

fee schedule prices

- Full Cycle credit on every closed case
- Two printed models in every case
- Confirmation within the hour

$4,780 per standard arch, full cycle

SILVER

6+ ARCHES A YEAR

5% off

all fabrication

- Direct line to the bench
- Design-review call on every arch
- Full Cycle credit

$4,541 per arch · 6-cycle package **$27,246**

GOLD

12+ ARCHES A YEAR

10% off

all fabrication

- One free try-in per case
- Priority lane on finals
- Quarterly case review with Luiz Brito, MDT
- 12-month price lock

$4,302 per arch · 12-cycle package **$51,624**

DIAMOND

24+ ARCHES A YEAR

15% off

all fabrication

- Rush included
- Priority lane on every stage
- Design review on every arch
- One in-office protocol session a year
- 24-month price lock · cases featured by the lab

$4,063 per arch · 24-cycle package **$97,512**

Tiers are earned on the last 12 months of delivered arches, or opened at once with a prepaid cycle package (valid 12 months, Diamond 18). Discounts apply to fabrication — guides, models, try-ins, prototypes and finals — never to outside-stage fees, rush or shipping.

Live Online Conversion — surgery day, on your schedule

Book the day and hour of surgery, months ahead if you like. Luiz Brito, MDT is online at that hour, converts the denture to the hybrid design live as the surgery progresses, and sends the print-ready file to the printer at your clinic or your local lab. Per session, in addition to the case work (the PMMA, printed hybrid or titanium frame is billed as listed).

$500

PER SURGERY-DAY SESSION

HOW A CASE MOVES

From scan to smile

01 · RX

Prescription

You fill the online Lab Rx: patient, arch, dates, items, notes and your files. ZYGMA confirms receipt by email with the case ID.

02 · PLAN

Smile design & reduction

Smile design on your scans and photos; bone reduction planned with your measurements into a personalized guide.

03 · SURGERY

Guides, models, try-in

Printed in SprintRay resins and delivered for surgery day, with the conversion prepared.

04 · CONVERT

Analog to digital

The conversion is brought back into the digital plan; new hybrids are redesigned for occlusion and midline.

05 · APPROVE

Final design review

The final zirconia file is reviewed with you; approval is the billing moment for the hybrid.

06 · DELIVER

Zirconia, hand-layered

Deprag zirconia with Noritake ceramics, finished and polished by Luiz Brito, MDT.

SETTLING THE INVOICE

Payment

Due upon receipt of the invoice. Prices in US dollars.

Mail or hand-deliver

Fees effective October 2026 and subject to change with notice. Cases needed in under 7 days carry a 20% rush fee on every item. The $1,000 Digital Case Planning package applies only to cases planned and designed entirely by ZYGMA, and is credited on the final hybrid invoice when every stage of the case is made by ZYGMA (Full Cycle). Circle tier discounts apply to fabrication only. Fabrication, rush, shipping and post-approval remakes are billed as listed or quoted. Luiz Brito, MDT.
